In France, Revenues progress significantly and reach € 11.9 M.

In Europe, we note the recovery of the Italian market, the English and Spanish markets cannot reach the expected level.

The other European countries, in particular the countries of Eastern Europe, are having a very good start to the year.

But it is outside of Europe where the progress is most important. Indeed, outside Europe, Group sales rose by nearly 65% in the first quarter, reaching almost 9.5 million Euro.

China, Peru but also Ukraine and our Export Department pull up this good result.
